CITY ITEMS. THE EXECUTION

The Crime and its Expiation. Pacetal Correspondence of the Cheego Pribage.]

BOCKPORD, March 71th, 1867.

BOTTORS TATILUES:—This beautiful and usually quiet city has been all astir to-thy, and the signs of an approaching event of no ordinary kind have been visible in the suxious looks and altered demeasor of almost every citisen. Early in the day, the tinhabitants of the surrounding country compenced pooring into the city, so that by noon the principal streets, particularly those surrounding the public Square, in which the Jail to situated, were crowded with men women and children, all carnestly talking of the execution soon to take place. The facts of the marier were briefly these:—On the 11th day of November last, Alfred Countryman and a younger brother, came to Bockford with some cattle in their possession, which they sold at a price

cattle in their possession, which they sold at a price so low as to create a suspicion that the cattle were stolen. Sheriff Jone F. TAYLOR consequently had Csuntryman and his flother arrested and brought before at examining magistrate, and they were ordered to find hall to answer for the alleged offence at the wext term of the Circuit Court. The hall not being Forthernsing, Mr. Taylor proceeded to convey Affred Countryman to jail. After they had reached the front door of the prison, Countryman broke away from the Sheriff, jumped over the fence, and statted to run—the officer in closs pursuit. They had gone only some two or three hundred feet, when the fuglifier drew a pittol and shot the Sheriff through. the lugitive drew a pistol and shot the Sheriff through-the heart, killing him almost instantly. Country-man escaped to the woods, and was shortly after-wards arrested by a crowd who went-in his pur-suit, and lodged him in jail. On the 23d of Pebrunzy last, the trial of the nurrierer was commenced in the Circuit Court, which resulted in his conviction. and he was sentenced to be lung on this day.

The arrangements for the execution, made under the immediate direction of Sheriff Church, could not have been better or more complete. The place selected for the scene of execution is some two miles both west from the city. The ground rises rapidly from three sides of a flat or "swale" in the prairie, froming an amphitheatre. The culture

About I o'clock, the coriege started from the jail for the gallows. It consisted of five carriages containing the prisoner and the sheriff and his deputies, members of the bar, the spiritent suvisor of the criminal, physicians, members of the press, and the prisoner's father, brother and sister. Upon each side of the carriages messed a sweet of two there.

prisoner's father, brother and sister. Upon each side of the carriague marched a guard of some three hundred fiveness and citizens, arused with subers and garbines. After reaching the ground, those in the carriague took their places on the scaffold. After a short panie, Rev. Mr. Crews offered a prayer in blehalf of the doorned man, in which the prisoner second to join with great extrustment.

The criminal then addressed the rowd as follows: George and the addressed to join with great extrustments.

Curiosity was, no doubt, the prime motive which induced their attendance; and those who contend that examples of this kind have the effect to determine from incurring a similar penalty, would be sailly puzzled to determine the effect of the conflicting emotions which stirred the brands of that vast crowd of spectators, who had congregated for the single purpose of seeing a follow creature die.

I am inwilling to close this somewhat hisstily written communication, without acknowledging the many courtesies received from Mr. Cauron, the sheriff, and his gentlemanty assistants. During the whole of the trying acces in which they were necessarily participants, they performed their duties in the most communicable manner, and so perfectly was everything arranged that nothing occurred to mnecessarily prolong the proceedure of the execu-

A San Case or Description.—Last fail the father of a family of three daughters and two sons, died, leaving them in very straitened circumctances. The sons were too young to be of any assistance, and the daughters endeavored to support themselves by needle-work and thus barely managed to exist during the long and severe winter. When spring came their supply of work entirely failed them and grim want seemed ready to stalk into their humbel dwelling. About this time the voncest distern. grim want seemed residy to stalk into their hum-ble dwelling. About this time the youngest sister disappeared and could not be found. Finally a painful rumor reached the suffering family and they obtained the aid of officer Williams, of Bradly & Co.'s Detectives, to rescept their sister from a life of shame. Mr. Williams immediately commenced a scarch and soon found the girl in a house of Ill fame. After some persuasions and asserting her that her After some persuasions and assuring her that he relations were willing to receive her, she left the house and retured to her home, where her sist were overjoyed at her restoration. Mr. William found the family in the greatest poverty, and though his exertions \$20 was immediately raised for support and a quantity of sewing provided f at paying prices.

Mr. Woore, the originator of the scheme, is at Toronto, looking after the bill now before the Provincial Parliament, by which the organization of a company and the construction of the canal are authorized. Little dealst is en-tertained that a very liberal charter will be tertained that a very liberal charter will be granted. A certain perdonable pride, which the Canadians will feel in opening a channel on Canadian soil, through which the vast commerce of the Northwest will be invited, will cause them to grant to the company all the privileges they can consistently with the protection of the public interests.

Cor. Ceary and the New York These.

Gov. Geary and the New York Times.

The New York Times employs a correspondent at Washington, who is supposed to reflect the sentiments of that journal, whenever he leaves the telling of facts, and ventures into the shadowy regions of opinion. It seems to be the special labor of that gentleman—and in it he is very greatly assisted by the editorial force in the Times office—to magnify Mr. Bechana's devotion to Free Soil, to impress the public with the undereleped fairness of his administration, and to reprove, as extremely reprehensible, the restiveness of the country under the rigid pro-Slavery domination to which it is condemned. We have looked in vain for editorial disclaimers of the "puth" which he is daily n the habit of bestowing upon the powers that be; but our utmost care has not enabled us to detect a single negation of the herestes to which be Tisse, through its correspondent, is so often committed; and hence we reluctantly conclude that the political literature which is extremely densive to the unintered some of Western Remblicans, is acceptable and savory to the coton legators and stock-jobbers for whom it is tan krakers and stock-jobbers for whom it is doubtless intended. But, we live "out West," and know little of the mysterles of metropol-tan journalism, else we should venture to sug-gest to the Tracs that its reputation as Republi-can authority depends upon the doing of one of two things—discharging its correspondent, or confessing that he is a Border Ruman in Be-mblican discusse.

Albany Ticket Swindlers.

From the Journal, which gives a detailed atement of the mode which these posts of sciety operate, we infer that Albany has more fibese ruscals than her share. They have, ye the Journal, offices in Maiden Lane and ther parts of the city, with large signs and osters, and employ runners to bring purchases of tickets to their offices. They farnish a cod ticket to Bullalo, but bogus ones beyond, and a woman who was going to fow with her smily, expecting to meet her husband. In Chingo, bought her supply of tickets at one of lesse offices, but at Buillalo found herself pendices among strangers, and her tickets West corthless. The Railroad Companies refuse to elil tickets to the bogus agents, but they get hem in New York and other places, it ye sending screens for them who were unknown to the

It would appear, too, that these swindling speculious at Albary extend to not only rap-ners, but to omnibus and carriage drivers, who carry vistims to these begue ticket offices.

ACKERS of THE MORAY GRINDERS.

There has been considerable effort to get Mr. Appleton out of the Usion, and somebody size into it. His sickness was used as the estemable cause for these distributessed, exertions, which were, perhaps, encouraged, to some extent, by his own belief that it was more serious than at first appeared. Within the last few days, however, he has inclined to maintain his ground, and not to yield to the suitbut holder of those first appeared. Within the last few days, how-ever, he has inclined to maintain his ground, and not to yield to the selfah noticitade of those who would be glid to find a more convenient instrument in a successor. The Linear polities and position have been brought fato requisition before to day, subserving personal interests, and the printing, now, is ready the object towards which show behind the sceneiger circeting their exertions. It was found convenient recently, in certain qualified phrases, to deny that the ownership of the property of that establishment resided in Wendet, the printer, and McGuire, the bookbinder to the Senate. But this contra-

ment and are easted, where at that point is so feet. There were on the tender mine laborers and Mr. Corwin, carpenter, employed upon the work, with boarded in the city and find got on board to ride over, as had been their habit. Four-of the men were instantly killed, and the other five seriously injured. The fireman had his thigh broken. The engineer, (Mr. Stary) succeeded it jumping our on the opposite side of the track, and essaped unburt.

The names of the killed were: Thos. Gilmore, Maurice Pitagearaid, Patrick Fox, and Thos. Hayden was 22 years old. Fox was about 25 years old, and leaves, wife with a chill six hoothmoid, in destinite circumstances. Pitagearaid was a single man. His bead was influence and party connectious, and through them appropriate the impense prefit and judgest that are controlled by power of this Democratic organ. What arrangement was subsequently made, in not understood, but these jobbers, and hobbyers, and Treasury levelos, still hold a fire, which gives them power that is wielded excllusively for mercenary objects.

Anorrow or A NEW MULE.

Gen. Case has established a rule with the foreign ministers, which will have the effect of felleving him of some sumoyance. Heretofore, they have always had the entries at the Department of State, to the exclusion of all visitors, and empoyed a preference, which was inconvenient to the Secretary, and not particularly acceptable to the public. He requires them before being admitted to an interview, to request it in writing, and state at the same time the special object to be considered. The reason of this regulation proper is enough, fies. Case being necessarily ignorant of the yiews and committals of his predecessors upon the various subjects which engaged the attention, could not be prepared to take them up at the point of his retirement without the apportunity of committing the records, which he is now enabled to do. actions of the st. Louis scaled of maledatus.

Sr. Louis, March 27.—The following amendment, made by the Board of Additionen to a resolution of the Board of Delegates relating to the appointment of a committee on the part of the City Council, in reference to the improvement of the Illinois river, was read, viz:

"That in the opinion of the City Council it is inexpedient for the city of St. Louis to sanction even impliedly any solvene of altering or interfering with the navigable water courses by the authority of private profit of speculation, and that for this reason the City Council decline to cooperate with the Chamber of Commerce of this city in making surveys and plans for the construction of works in the Illinois river with a view to slack-water navigation, as proposed by a deputation from Chicago, under a recent act of incorporation by the Illinois Legislature for the said purpose."

On motion of Col. Long, the Board refused to

A Homm Fays.—A Irishman who resided in this city, disappeared in September hast. His wife, family and neighbors had diligent search made for him for weeks, but without success. He had last been seen riding in a wagon from the city, under the supposition that he was on the way to the city. He was advised of his mistake and got out of the wagon, in which he had asked the privilege of riding. He was quite drunk and delireous at the time. A few days since a dog brought a human head into a farm house in Scott township. It was taken from him and he was watched, and at length traced too human body on the farm of Mr. Taylor, Scott Township. The fisch had nearly all disappeared, but the clothing was recognized by his poor widow and her friends as that of the person above alluded to, who disappeared in September. His name is — Morrison. He was a good mason, and has done a large amount of work in this city. Whiskey these are thy doings.—Insectly lips. Here Yerk.

Mr. E. F. Craft and his clerk had just closed up their stero, and were lingering on the pave-ment in front, when the explosion took place. They were knocked down and quite seriously, but not dangerously hurt.

Several persons passing on the opposite side of the street were somewhat stunned, and others wounded by the flying pieces of timber. One spiniter of wood passed through the glass door of Bory & Millenberger's building house, and lodged in the back room of the office. Several explosions followed the first one.

A constant stream of water was kept playing apon the ruins during the whole of last night, and the rubblish will be removed to-day. Discriminating Canad Tells in New York.

(From the Albary Carrespondences in N. Y. Tribune.)

The movement for the establishment of discriminating toils, according to the confident assertions of its opponents, in dead; whereas they are in decidedly high feather. They say that the Tribune was mistaken in the assertion that Mr. Fitshing was the only member of the Canal Board who opposed discriminating toils. It appears by the proceedings of the Board that the vote stood five for discrimination and four against it, although the misority report was DREADFUL ACCIDENT ON THE ILLINOIS CENTRAL RAILECAD.

the vote stood five for discrimination and four against it, although the minority report was only signed by Mr. Commissioner Fitzhugh. On discriminating tolls, the vote of the Board stood as follows: Yeas—Mesers. Burrows, Cushing, Headley, Selden, Whallon—6.

Nays—Mesers. Clark, Fitzhugh, Seymour, Shorrill—4.

On the question of imposing tolls on freight by railroad, the vote was also five to four.

On Thursday morning last, a little before six o'clock, engine and tender No. 68, employed on the work of Messes. Keith & Saeil, on the great embankment across the river, had just left the depts and was proceeding to the work, and when a few rods beyond the bridge the arack gave way and precipitated it down the emisanchment on the east side, which at that point is 60 fest. There were on the trader mis laborers.

Fitzgerald was a single man. His head was terribly minighed, his right arm broken in three places and his right leg bryhen. The wounded were: Ira Corwin, earpenter

Legislature of Rhode Island has finally come to a decision upon this question. The Provi-dence Journal of Saturday morning says: dence Journal of Saturday morning mys:

"The House, by a vote of 38 to 20, resolved that every person who shall commit murder shall be imprisoned for life;" and by a vote of 40 to 10, refused to declare that murder compitited by a conviet in the State Prison shall be punished with death. Mr. Thaiberg's success in this city, Philadelphia and Boston has been greater than that of any other artist who has ever visited the United States, excepting only Jenny Lind. Mr. Strakosch, it is mid, has to pay for forty-eight concein, to be given in two months, the sum of thirty thousand dollars. The Constitutional Amendment is adopted.
By a very large vote—an unanimous one so
far as Republicans are educarind—the joint resolution granting the right of Suffrage to all
citizens without distinction of color, has been
passed through both Houses. It has yet to be
adopted by another Legislature and subsequently ratified by the People at the polls, before it
can take effect.

The experiment by not a new one. Colored
men have voted in Massachusetts ever since the
Declaration of Independence. They have voted
in Maine ever almession as a State,
and in Rhode Islami-tever since she had a written Constitution. New Hampshire and Vermont granted them the right is wote, upwards
